

PATIENT DEMOGRAPHICS & ENCOUNTER

Patient Name: Shivam	Date of Birth / Age: 21 Y	Gender: Male
Date of Assessment: 11-Jun-2026	Time of Assessment: 01:53 AM	Status: COMPLETED
Referring Facility: -	Ordering Provider: -	Position: -

CLINICAL IMPRESSION & OVERALL SCORE

37
/ 100

Risk Category: MILD CONCERN

The patient's overall cognitive score is 37 out of 100. Based on the standardized CAA grading scale, this places the patient in the 'MILD CONCERN' risk category. This indicates mild cognitive changes. Observe for symptoms and consider follow-up assessment.

NEUROCOGNITIVE DOMAIN BREAKDOWN

DOMAIN	RAW SCORE	WEIGHTED	PERCENTILE	CLINICAL STATUS
Visuospatial	5.0 / 6.0	8.3 / 10	83.3%	Significant Impairment
Mood	2.0 / 9.0	2.2 / 10	22.2%	Within Normal Limits
Executive	7.0 / 15.0	13.1 / 28	46.7%	Mild Impairment
Language	6.0 / 15.0	8.8 / 22	40.0%	Mild Impairment
Memory	11.0 / 16.5	20.0 / 30	66.7%	Significant Impairment

REFERENCE RANGES

SCORE RANGE	RISK CLASSIFICATION	RECOMMENDED CLINICAL ACTION
0 - 20	Low Concern	Routine Monitoring
21 - 45	Mild Concern	Observe Symptoms
46 - 65	Moderate Concern	Clinical Consultation
66 - 100	High Concern	Immediate Evaluation

APPENDIX A: DETAILED ASSESSMENT RESPONSES

ITEM NO.	CLINICAL PROMPT / QUESTION	DOMAIN	PATIENT RESPONSE
E1	I have withdrawn from hobbies or social activities.	Mood	Sometimes
D1	I misjudge distances or bump into things.	Visuospatial	Getting Worse
E2	I feel more anxious, irritable, or low in mood.	Mood	Never
D2	I misidentify objects or patterns.	Visuospatial	Frequently
C1	I frequently struggle to find the right word mid-sentence.	Language	Frequently
E3	My personality feels noticeably different.	Mood	Sometimes
C2	I get confused about what day, month, or year it is.	Language	Sometimes
B1	I struggle to manage bills, banking, or financial decisions.	Executive	Sometimes
C3	I have difficulty following conversations or TV shows.	Language	Never
B2	I find it harder to plan and complete multi-step tasks.	Executive	Never
A1	I forget conversations or events that happened within the last few days.	Memory	Never
C4	I sometimes get disoriented or lost in familiar places.	Language	Sometimes
A2	I repeat the same question or story to the same person without realising it.	Memory	Frequently
B3	I have made unusually risky or careless decisions recently.	Executive	Sometimes
B4	I need more help than before with daily activities.	Executive	Frequently
A3	I forget appointments, important dates, or where I placed common objects.	Memory	Sometimes
C5	I have trouble following step-by-step instructions.	Language	Frequently
A4	I have difficulty learning how to use a new device, app, or gadget.	Memory	Getting Worse
B5	I start tasks and forget what I was doing partway through.	Executive	Getting Worse
A5	Someone close to me has mentioned my memory seems worse recently.	Memory	Frequently
